

## ATM Alarm or ATM Chain from Bull Horn

**Bull Horn ATM Alarm is the #1 name for physical ATM security.**

Ram-raids smash and grabs, are on the rise at an incredible rate. ATM industry experts state that this is not only happening in the U.S. but all over the world, and only going to get worse. Why make your ATM a target for thieves who may crash through store fronts, damage buildings, merchandise, equipment, and then leave with the ATM and all the money in it? This costs merchants tens of thousands of dollars in unnecessary losses. You can prevent this happening to you with a Bull Horn ATM Alarm.

### BH2000 ATM Alarm

**Instant text message and or email of:**

- ATM Alarm sounding
- ATM Alarm turned on
- ATM Alarm turned off
- ATM Alarm off 10 min. reminder
- AC power off / Bull Horn back up battery on
- AC power on
